NEWS ARTICLE

DRAFT ALBERTA TIER 1 SOIL AND GROUNDWATER REMEDIATION GUIDELINES (2006)

Alberta Environment is enhancing its management of contaminated sites, including a greater role for environmental professionals and the introduction of remediation certificates of petroleum storage tank sites in the fall. To support these changes, the Department is updating its policies and guidance documents to more clearly define Alberta Environment's expectations for contaminated sites management.

Members of the public are invited to provide comments on the *Draft Alberta Tier 1 Soil and Groundwater Remediation Guidelines (2006)* between August 22 to September 22, 2006.

Tier 1 remediation objectives are generic guidelines. This document is intended to provide a single, comprehensive source of Tier 1 soil and groundwater remediation guidelines for use in Alberta.

Once finalized, the soil and groundwater guideline values in the *Alberta Tier 1 Soil and Groundwater Remediation Guidelines (2006)* will supersede:

- *Alberta Soil and Water Quality Guidelines for Hydrocarbons at Upstream Oil and Gas Sites* (Alberta Environment 2001a); and
- *Risk Management Guidelines for Petroleum Storage Tank Sites* (Alberta Environment 2001b).
- *Alberta Tier 1 Criteria for Contaminated Soil Assessment and Remediation* (Alberta Environmental Protection 1994)

Values from the *Canadian Environmental Quality Guidelines* (CCME 2003) are also included in the *Draft Groundwater Remediation Guidelines (2006)*.

Comments on the draft *Alberta Tier 1 Soil and Groundwater Remediation Guidelines (2006)* should be directed to:

Gordon Dinwoodie
Environmental Policy Branch
4th Fl, Oxbridge Place, 9820 – 106 Street
Edmonton, AB T5K 2J6

OAK'S SUMMER ACTIVITIES

JULY

On July 6, the staff at Oak hosted a good ol' Stampede Breakfast gatherin'. Thanks for coming out!

JUNE

We are pleased to announce the recent addition of Sara Stewart to our staff. Sara is a recent graduate in environmental technology and assists in our rental and service area. Welcome to the team Sara!

MAY

To accommodate Oak's expanding rental fleet and to better serve our clients with their equipment and servicing requests, we have expanded our equipment service and rental area.

DID YOU KNOW?

Oak Environmental provides equipment servicing on a variety of field instrumentation.

✓ Inspection

✓ Service

✓ Maintenance

There is no charge for equipment inspections.

We also provide equipment maintenance and calibration workshops. Call us for more information.

EQUIPMENT TIPS

- To test Interface Probes and Water Level Meters, use tap or well water. Meters will not operate using distilled water. Interface Probes should not be tested in direct sunlight.
- "Can I detect TCE with a MiniRae 2000 PID?" Yes you can. As well, you can detect a wide variety of other gases. For full details, search on the internet for - RAE Systems Technical Note TN-106.

Oak Environmental Inc.

#103, 4712 – 13 Street NE Calgary, AB T2E 6P1

A Proud Sponsor of the Calgary Exhibition & Stampede

PRODUCT HIGHLIGHT

DIVER

COST EFFECTIVE WATER LEVEL DATA LOGGERS

Mini-Diver: Proven Concept

- Dimensions: 22 X 90 mm
- 24,000 measurements
- +/- 0.05% FS accuracy (0-40°C range)
- Up to 10 years battery life

Micro Driver: Small in Size Great in Performance

- Dimensions: 18 X 90 mm
- 48,000 measurements
- +/- 0.1% FS accuracy (0-40°C range)
- Up to 10 years battery life

As low as
\$565/unit

Oak Environmental Inc. can provide Information, demonstrations and/or pricing for the New Diver product line.

OAK AS A DISTRIBUTOR

For over 20 years, Oak Environmental Inc. has been a distributor and supplier of many quality product lines to the Alberta Water-Well and Environmental industries.

And more!!

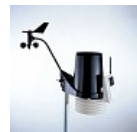

RENTAL ANNOUNCEMENTS

In response to meeting client requirement requests, Oak continues to expand its rental fleet by increasing the number of the following equipment:

- YSI 556 MPS Multi Probe Systems
- Gastech 1238MEs
- Heron Interface Meters

To inquire about weekly and monthly rental rates, or to find out about other equipment we carry for rent and purchase, please contact Terry, Frank or Wesley at (403) 250-9810.

MONTHLY SPECIAL

VANTAGE PRO2 WEATHER STATION

- Measures barometric pressure, temperature, humidity, rainfall, wind speed and direction.
- Extensive on-screen graphing.
- Wireless and Cable versions.

ON SALE: \$505 CABLED, \$605 WIRELESS
