## Oak Environmental Presents: The Nielsen Environmental Field School

In Calgary, AB - June 16<sup>th</sup> to 20<sup>th</sup>, 2014

### The Complete Ground-Water Monitoring Field Course

Oak Environmental is pleased to bring **The Nielsen Environmental Field School** to Calgary, AB to teach their 5-day Complete Ground-Water Monitoring Field Course, focusing on ground-water monitoring and sampling technologies and methodologies. The course instructors, David and Gillian Nielsen, will conduct classroom and field training from June 16<sup>th</sup> to June 20<sup>th</sup>, 2014.

This course comprehensively covers environmental drilling and monitoring well placement, design, construction and development, as well as up-to-date procedures for ground-water sampling. The course features two half-day field sessions in which students' hands-on participation is encouraged.

In the first field session, students will learn how to collect and use soil and ground-water samples and other information to characterize a site, install small diameter wells using a direct-push rig and a sonic drilling rig and learn about applications and installation of multilevel monitoring and sampling systems. The second field session focuses on field practices and procedures used to effectively implement a ground-water sampling event for traditional sampling, low-flow purging and sampling, and no-purge sampling programs. We would like to thank Boart Longyear, CDS Drilling Services and Heritage Meadows for their contributions to making these field sessions possible.

The course outline is available at [www.oakenviro.com/pdfs/Nielsenoutline2014.pdf](http://www.oakenviro.com/pdfs/Nielsenoutline2014.pdf). You can learn more about The Nielsen Environmental Field School and the background of the course instructors at [www.envirofieldschool.com](http://www.envirofieldschool.com)

The classroom sessions will be held at the Carriage House Inn; 9030 Macleod Trail SE, Calgary, AB Tel # 403-253-1101. The field site is a 15-minute drive from the Carriage House Inn. Special room rates of \$145.00/night are available for course registrants - reference "Oak Environmental" when booking.

The cost of this 5-day course is **\$ 2,195.00 CDN per person plus tax**. Discounts are offered for students and IAH members. Refreshments & snacks will be provided.

For more information or to register for this course, please contact **Frank Magdich** at Oak Environmental – [frank@oakenviro.com](mailto:frank@oakenviro.com) or Tel # 403-250-9810.
