## INDUSTRY INFORMATION & EVENTS

### CONFERENCES

- **CLRA Alberta AGM** February 25-27, Red Deer AB [www.clra.ca](http://www.clra.ca)
- **AWWDA** April 2-4, Red Deer AB
- **WaterTech** April 29 - May 1, Banff AB [www.esaa-events.com](http://www.esaa-events.com)
- **MD Battelle In-situ and on-Site Bioremediation Symposium** May 5-8 Baltimore [www.battelle.org](http://www.battelle.org)

### WORKSHOPS/TRANING

- **Princeton Groundwater Pollution and Hydrology** - February 2-6 Orlando & March 2-6 San Francisco - [www.princeton-groundwater.com](http://www.princeton-groundwater.com)
- **Inclinometer Course** - April 6, 2009 Calgary AB - [www.slopeindicator.com](http://www.slopeindicator.com)
- **Environment Business 2009** - February 10-11 Edmonton AB - [www.environmentbusiness.ca](http://www.environmentbusiness.ca)
- **Nielsen Environmental Field School** - February to May Various locations - [www.envirofieldschool.com](http://www.envirofieldschool.com)

## NEW GEOTECHNICAL RENTAL EQUIPMENT

### RST DIGITAL MEMS INCLINOMETER SYSTEM

Oak is pleased to announce the addition of a RST Digital MEMS inclinometer system to our rental fleet. This metric system has 100m of cable.

For more information or to demo the Inclinometer System please contact Frank 403-250-9810 or [frank@oakenviro.com](mailto:frank@oakenviro.com)

Oak added this instrumentation to better serve the needs of our Geotechnical clients. Let us know if there is any other equipment you would like to see Oak add to our fleet.

## GASTECH 1238 ME DISCONTINUED

Production of the GasTech 1238 ME - the "workhorse" hydrocarbon gas detector used by Canadian Environmental consultants for nearly 20 years - has been discontinued.

Oak will continue to provide quality service of GasTech 1238 ME units. We have many critical parts in stock and plan to keep our rental fleet as well as our clients' existing 1238 ME units operating for up to 2 more years.

### What comes next?

To assist our clients in moving forward from the 1238, Oak has been evaluating two alternate instruments. Oak has tested the RKI Eagle and the Thermo Fisher INNOVA FV hydrocarbon gas detection instruments, both of which are in our rental fleet.

Oak is happy to discuss the advantages and disadvantages of each unit; and we encourage our clients to field evaluate each unit to see which one best suits their requirements. For more information, training or pricing please contact Wes [wesley@oakenviro.com](mailto:wesley@oakenviro.com)

## RENTAL ANNOUNCEMENTS

In response to client requests, Oak continues to expand our rental fleet:

- Field Scout EC Soil Probe
- RST MEMS Inclinometer
- PhotoVac Micro FID Gas Detector
- MGD-2002 Helium/Hydrogen Gas Detector
- Petro Flag Soil Analyzer

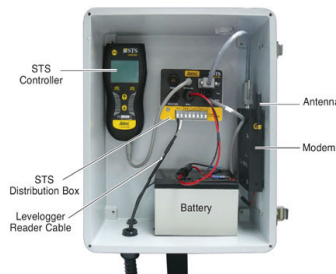

## HYDROGEOLOGY

### SOLINST STS GOLD TELEMETRY SYSTEM

Oak is setting up STS Gold Telemetry Systems - GSM & CDMA Cellular Wireless Systems and a Satellite System - available for demonstration soon.

For more information about the Solinst STS Gold Telemetry Systems please contact Frank 403-250-9810 or [frank@oakenviro.com](mailto:frank@oakenviro.com)

## WHAT'S NEW AT OAK

Giving this ...

... makes this possible

Oak Environmental and International Children's Awareness Canada have teamed up to donate solar-powered lighting to 100 homes in Cameroon, Central Africa.

You can help us make a difference. Please speak to a staff member for more information.

[www.icacanada.org](http://www.icacanada.org)

[www.oakenviro.com](http://www.oakenviro.com)

### OAK CHARITY PROJECT

Oak has teamed up with *International Children's Awareness Canada* to light up rural homes in Cameroon.

Oak is helping with this initiative by providing lights, solar arrays, batteries, wiring, switches, connectors, cable ties & mounting hardware to install two LED POD lights in 100 rural homes, thereby replacing potentially harmful kerosene lamps with a reliable light source.

In February 2009 a team of people, including an Oak staff member, will travel to Central Africa to teach local teams how to install, operate and maintain lighting system in 100 homes. At Oak, we want to expand this initiative for 2010 and aim to light up 1000 homes next winter. Join us in making a difference!

Oak welcomes Arianne Lowe to the team as our new Receptionist/Assistant.

## CAMEROON FACTS

### REPUBLIC OF CAMEROON

- Size - 474,445 sq km
- Capital - Yaounde
- Population - 18.2 million
- 51% of the population live in poverty
- 56% of the population is under 20 years of age
- Doctor Patient Ratio 7:100,000
- Literacy rate - 67%
- Highest Elevation 4,070m, Mt. Cameroon an active volcano
- Home to the Cross River Gorilla, the rarest primate in the world

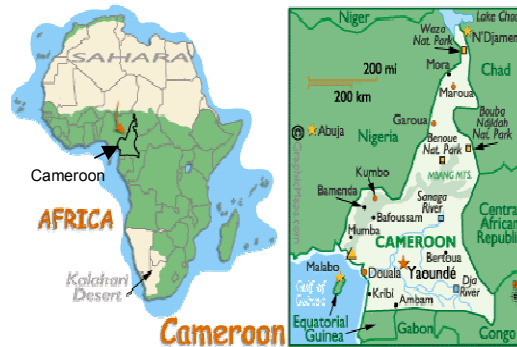

## ICA CANADA

International Children's Awareness areas of involvement in Cameroon are:

- Heath, Education
- Water Development
- Solar Power
- Women's Initiatives
- Orphanages
- Cross River Gorilla

To learn more about these and other ICA Canada's projects please visit [www.icacanada.org](http://www.icacanada.org)
